

WHAT DO ALUMNI DUES DO?

How Your Alumni Association Dues Work...

The Franklin Alumni Association is off to a flying start this year planning events benefiting the Falcon community and current Franklin students. Our ability to sponsor these events is powered entirely by membership dues. The recommended dues amount is \$30 and covers membership from July 1, 2016 - June 30, 2017. If you like what you see, consider giving more!

What do we use your dues for?

Through membership dues, we've been able to fund the following events & programs in the past:

- Reunion Seed Money
- Student Needs Fund
- Gifts to School — examples include contributions for Speech and Debate to compete at nationals, startup funds for the Robotics team to compete, and teacher requested materials and supplies such as lab equipment.
- BFHS Alumni Newsletters
- Career Connect for Rising Seniors
- Faculty Appreciation Party to honor current and former faculty
- Ben's Bash — Annual membership meeting
- Graduation Celebration and time capsule for seniors
- Yearbook Party for Graduating Seniors
- Lights/Alumni Tailgate at Homecoming Game
- Ben's Birthday event at Franklin
- Alumni Art Show

What are the benefits of becoming a dues-paying member?

In addition to helping us continue to fund the above programs, here's a sampling of some benefits:

- Satisfaction of knowing that you are supporting our legacy of excellence & development of our alumni network
- Access to the online Alumni Directory and contact information for alums who choose to participate
- Voting rights in the Association
- Inclusion on the donor list
- Reduced rate for ads in Alumni Association newsletter

We would like to inject more octane into our engines this year and fund additional activities. Perhaps your contributions will support future activities such as:

- Networking events for alums
- Junior Ring Ceremony

If you haven't paid your dues yet, you can do so on the website or by mail (see remittance envelope enclosed).

The Alumni Association thanks you for your contributions!

Top to bottom: Class of '66 returns to school for a reunion tour;
Robotics team competes in Nationals;
seniors celebrating at the after-graduation party
